Protected Places — Electric Power Stations

File No. of 19 General and Revenue Secretariat.

Serial No.

From

The Chief Electrical Engineer, Bangalore

Do no 3134 dated 20th May 1940

sends a list of electric Power stations that may be notified as Protected Places under the Defence of India Act and Rules

The C.E.E has sent a list of 8 stations and the I.G. of Police has sent a similar list of 8 Stations that may be notified as "Protected Places". 7 of the stations are common to both the lists. In addition to these seven the C.E.E suggests the Pumping Station at Thippagondanahalli and the I.G.P, the Electrical station at Bhadravathi.

Submitted for orders if all the 9 may be included. A Notifications have to issue declaring them to be Protected Places under rule 7 of the Defence of India Rules.

Under rule 6, Govt or any officer to whom the Power is delegated (Act section 2(5)) have to exercise the powers given by 6 (1) and (2) viz power to give permission to enter the Protected Place. Even officials and persons working at the station can get into them only under passes issuable by such authority. The I.G.P. suggests that the power may be delegated to the Officers in charge of the Stations. In the case of Stations the

power has been delegated to the Commissioner of Police in regard to the Electrical Stations Rules. This is a point for orders. A separate Notification will have to issue delegating this power

After the Rules Notifications issue, the I.G.P will if approved be requested to post adequate armed guards to Protect them.

Subs for orders

(Secy 20/5)

1) In the districts, the Dist Supdts of Police may be empowered to issue passes. In Bangalore, the I.G.P. may do so. Delegation of powers to officers in charge of Stations would not be appropriate.

2) All the Power Stations may be notified as protected places.

The I.G.Of Police who was informally consulted this morning, under instructions of the Chief Secretary, is of opinion that it would cause great inconvenience if the power is delegated to either himself or the Heads of the Departments concerned. Workmen, for instance, who have also to possess passes, may go on leave or new hands may be taken; passes would then have to be withdrawn or new ones issued. The Head of the Department may not always be at or near a Protected Place and the I.G. of Police fears that blank passes may be issued which would do just the mischief sought to be prevented. He suggests that officers in charge of the protected places may be empowered to regulate admission. He added that there could be no objection to Concurrent powers being given to the A.S.P.s also. This is for orders.

Two drafts are submitted. The names of the officers given in the second notification are for consideration.

PROHIBITED AREAS FOR CIVIL AIRCRAFT.

SIR,

I am directed to forward for the information of the Government of Mysore a copy of the Government of India, Civil Aviation Directorate memorandum dated the 24th October 1939 on "Prohibited Areas".

I have the honour to be,
Sir,
Your most obedient servant,

SECRETARY TO THE RESIDENT.

[redacted]

GOVERNMENT OF INDIA.

CIVIL AVIATION DIRECTORATE.

MEMORANDUM.

PROHIBITED AREAS.

There has been some doubt in the minds of civil pilots concerning the object and the utility of the prohibited areas for civil aircraft which were declared at the defended ports on the outbreak of war.

Both in peace and war the Government of India have endeavoured to curtail as far as possible the interference caused to Civil Aviation by prohibited areas. In peace time the only significant prohibited area was the North-West Frontier Province and the frontier zone of Baluchistan. In war the only additional areas so far declared are those of the defended ports of Calcutta, Bombay, Karachi and Madras.

Prohibited areas for flying, to be effective, must be few in number and substantial in area. It is recognised that a large number of small prohibited areas would defeat their own object, since it would be impossible for pilots to record them and avoid unwitting infringement. Small prohibited areas do not preclude observation either direct or by photography; and it is not practicable even for trained observers to determine with any accuracy, except in the case of a low flying aeroplane, what point it is flying over.

The principal object of the prohibited areas which have been declared is to exclude all aircraft other than those engaged in the defence of the area. Exceptions are made to a limited extent in the case of aircraft engaged in the operation of essential air services which cannot otherwise be maintained.

In peace, unauthorised aircraft flying over a prohibited area are liable to be fired on after being given the prescribed warning signal. In war such aircraft are liable to be fired on without warning. In the defended zones the defence units must be unembarrassed by the necessity of identifying civil aircraft flying over the zones, and the prohibited areas are with this object. Apart from the penalties attaching to an infringement of the prohibited areas, pilots are therefore warned of the dangers to which they are exposed even by unintentional flight over the prohibited areas.

F. TYMMS,
Director of Civil Aviation in India.

The Inspector-General of Police posted detachments of police to many of the places which I had suggested, but subsequently withdrew them.

The Commissioner of Police is retaining the guards at the "B" and "C" Stations in the Cantonment area. Sometime after the guards were posted, he called me on the phone and asked my advice whether they should be armed, and I told him I thought they should be.

Immediately after the first discussion with the above

two officers, I wrote a confidential letter No.3083 dated25th August 1939 to all the Sectional Officers, a copy of which I am enclosing herewith for your ready reference. I am sending you herewith my Confidential file on this matter and would suggest that armed guards be posted at the following places:-

1. Bangalore "A" Station.
2. The Pumping Station at Thippogondanhalli.
3. Generating Station at Sivasamudram.
4. Generating Station at Shimshapura.
5. The Forbes Transformer Station, Mysore City.
6. The Switching Station at Khankanhalli.
7. The Section House at Sarjapur.
8. The Receiving Station at K.G.F.

I am making this recommendation because of two reasons. The first of which is there are quite a number of Germans in and around Bangalore City and secondly because there are quite a number of Italians on the Kolar Gold Fields, whose country has recently adopted a strong antagonistic attitude towards Great Britain and France.

These Germans and Italians may not wish to cause any serious damage to any of our Generating and Receiving Stations, but,if they should, they could cause us substantial inconvenience and loss, especially at the two Generating Stations and the Receiving Stations at Mysore, Bangalore and K.G.F., and in that case we would be in a very uncomfortable position, if we do not take any precaution.

The Dewan of Mysore,

BANGALORE.

Sir,

DEFENCE OF OIL DEPOTS.

We have the honour to address you in connection with the arrangements for the defence of the Company's Oil Depots situated at Birur, Chitaldroog, Hassan and Shimoga.

On the outbreak of the war, arrangements were made throughout Bombay Presidency and in certain of the Indian States to provide an armed guard for the defence of our Depots against the danger of sabotage. In view of the recent course of hostilities, we suggest that it would be dangerous to overlook the possibility of sabotage by enemy agents, or to underestimate the crippling potentialities of such action on this country's defences.

We shall, therefore, very much appreciate it if you will be good enough to make the necessary arrangements for the

(P.T.O)

defence of our Depots situated in your State with as little delay as possible.

Letter Nated 24th May 1940, from Burmah Shell Company, Belgaum, to the Dewan of Mysore, Bangalore.

Defence of Oil Depots.

We have the honour to address you in connection with the arrangements for the defence of the Company's Oil Depots situated at Birur, Chitaldrug, Hassan and Shimoga.

On the outbreak of the war, arrangements were made throughout Bombay Presidency and in certain of the Indian States to provide an armed guard for the defence of our depots against the danger of sabotage. In view of the recent course of hostilities, we suggest that it would be dangerous to overlook the possibility of sabotage by enemy agents, or to underestimate the crippling potentialities of such action on this country's defences.

We shall, therefore, very much appreciate it if you will be good enough to make the necessary arrangements for the defence of our Depots situated in your State with as little delay as possible.

Government of the Hyrcan and Aryan Islands.

Consular Service Examination, May 15th 1924.

Composition.

An exceptional case of the power conferred by rule 7(2) of the Rules of Diplomacy, as applied to Hyrcan and Aryan Islands, was presented by the following facts. Write a full report of the case, stating clearly what action you would take, and why.

Mr. [illegible] Jones, Consular Agent at Port Hyrcan, to Mr. [illegible] Brown, Consul-General at Aryan City.

Port Hyrcan, 3rd March 1924.

Sir,

I have the honour to report that on the 2nd instant I received a visit from Mr. Ivan Petrovitch, a Russian subject, who informed me that he had been robbed of his passport on the previous day. He stated that he had left it in the pocket of his overcoat, which he had hung up in the cloak-room of the Hotel Europa, where he was staying. On leaving the hotel he had taken his overcoat from the cloak-room, but had not noticed that the passport was missing until he reached his home. He had then returned to the hotel and made a search, but without success. He had also communicated with the police, but they had not found the passport.

Mr. Petrovitch stated that he was desirous of proceeding to Aryan City, and asked me to give him a new passport. I informed him that I could not do so without instructions from you, and that I would report the matter to you. He then asked me to give him a letter stating that he was a Russian subject, and that he had lost his passport. I refused to do this, but told him that I would report the matter to you, and that he could call again in a few days for my decision.

I have, etc.,

(Signed) [illegible] Jones,
Consular Agent.

To: The Secretary to the Consul-General,
Aryan City.
